

October 4, 2002

Dear SWE WIA Members:

This year, based on the feedback and suggestions I received from you, we will not have panels at the SWE Conference in Detroit because of lots of overlapping activities and interests at the conference.

This year, the theme for WIA is “**Sharing Resources for Academia**”.

Let us continue to share information that is relevant and important to SWE WIA group electronically either by emailing to swe-wia-l@swe.org or by posting at the WIA web site (<http://ssd1.bme.memphis.edu/swe-wia>)

I would like to remind you of the resources posted on our web site:

- <http://ssd1.bme.memphis.edu/swe-wia/jobposting.htm> (Links to Job Postings)
- <http://ssd1.bme.memphis.edu/swe-wia/otherlinks.htm> (Other useful links including WEPAN, SWE Career Guidance, etc.)

The next year’s conference will be in Birmingham, Alabama (www.swe2003.org) with the theme of “Education, Environment, Enterprise” during October 9-11, 2002. Please consider attending the conference and submitting papers.

Have a wonderful year!

Semahat S. Demir, Ph.D., Doçent

Chair, SWE WIA Committee
Associate Professor of Biomedical Engineering
Univ. of Memphis & Univ. of Tennessee
